**Testimonial
Frankie Pabst
DIY'er**

As a loan officer I have a very busy week, But weekends are for me.
On the weekends I like to learn new things and build stuff.
As a young girl I always wanted to go to the moon but due to the stoppage after the last moon landing I all but lost hope in ever going to the moon that's when I found out about Bounce me to the moon.
All it took to get my dreams going was a few weekends of hard work and a little bit of money!
But I couldn't be happier I plan to do a test launch this upcoming weekend.

*Purchase of additional life insurance recommended.
